

CPROhio, LLC
Student Manual Policy

Thank you for choosing CPROhio to meet your training needs. We look forward to working with you.

Manuals are required per AHA Guidelines. Below please see the AHA textbook policy:

Each student must have the current appropriate course textbook readily available for use before, during, and after the course.

Textbooks are designed for individual use and are an integral part of the student's education before, during, and after the course. Students may reuse their textbooks during renewals until new science guidelines are published.

Important to note is that the AHA now has an open resource policy during the written exam. You are able to reference the manual during the exam.

If you did not purchase your course with manual included, there are several options available so you can obtain a provider manual

- Manuals are available in our office for purchase.
- Manuals may be available in your bookstore if you are a student, or in your AHA Education Department if you work in a hospital setting.
- You may try online sites- make sure it is the AHA 2015 Guidelines Edition
- **Customers can purchase manuals directly from one of three AHA distributors**
